Around 1964 Tradition began publishing a groundbreaking, prestigious magazine on military uniforms, which went under the title Tradition and following the success of the magazine, the model soldier range and their shop were similarly named. Many leading military authors and artists, past and present, were at the time contributors to Tradition magazine, which ceased publication in 1974. Fortunately, a number of past issues of this famous magazine are still available. Each issue contains many articles on military uniforms and related subjects, fully illustrated in black and white and colour.

# Tradition Magazine 1-76

Around 1964 Tradition began publishing a groundbreaking, prestigious magazine on military uniforms, which went under the title Tradition and following the success of the magazine, the model soldier range and their shop were similarly named.

Many leading military authors and artists, past and present, were at the time contributors to Tradition magazine, which ceased publication in 1974. Fortunately, a number of past issues of this famous magazine are still available. We are now reproducing the Tradition Magazine no longer in stock. Each issue contains many articles on military uniforms and related subjects, fully illustrated in black and white and colour.
